## INTERNSHIP

Worked as an team member in a team to develop an “[Online Assessment portal](#)”. In this internship period learnt so many things like how the company project will go and how to involve ourself in any project that are going in a company. On that time all the employees helped me lot to learn so many new things.

**Company : OXEIR INDIA LTD.**

## DBMS Projects:

**Taxi Management System.**

**Agri-Culture Management System.**

A simple web-based application designed for demonstration of how “[Taxi Management & Agri-Culture Management System](#)” will work for the education purpose. Front-end design done by HTML, CSS and back-end connectivity done through PHP, tool used XAMPP.
